Mystery Quilt 'Millefiori' with Sarah Fielke

Week Seven Block C

Example of Block C

Welcome to Week 7 everybody!

*All the seams in this quilt should be sewn at an accurate ¼''.

BLOCK C – make 12 of this block

- From 12 assorted coloured fabrics, cut one 4½'' square.
- From white fabric, cut 12 circles using whichever appliqué method you have chosen, see Week 1 instructions for details.

These instructions are the same as for Week 3, please refer to those if you need further details. When you have made 12 of these blocks, you can begin to sew them together! Take all the Block B and a Block C squares and stitch them together into pairs. Press the seams towards the coloured fabric.

Stitch the pairs together into 4 patch blocks across the centre seam with the blocks alternating. Pressing the seams in the same direction on each block will make it easier for you to match the centre point. Press.

Next take all of your 4-patch blocks, you should have a total of 12. Alternating the Block B and Block C squares again, sew four sets of 4-patch blocks together to make a row of 8 squares, see Diagram 1. Start with a coloured background square in the top left hand corner as shown. Make two sets like this.

Sew the two of the remaining 4-patch blocks into a row of two blocks, making a row of 4 squares all together, see Diagram 2. Start with a white background square in the top left hand corner as shown. Make two sets like this.

These sets of squares will now be referred to as ''Border 1''.

When you have made your Border 1 strips you will be ready for the next installment in one week's time. I hope you're enjoying the mystery!
